

EBP specializes in medical conventions and scientific events. With more than 20 years of experience in the sector, EBP is the official provider for ECM – Continuing Education in Medicine – the specific training for healthcare operators in Italy at the Ministry of Health.

EBP takes total care of medical conventions and scientific events, as a partner both with hospitals and directly with pharmaceutical companies.

EBP offers a complete and integrated service, managing the plans in every phase, from the organization before, during and after the event, to the organization of scientific expositions, the press office, and any specialized scientific services.

COMPANY STRENGTHS

Specific competencies for congress and medical events

EBP, thanks to the know-how and more than 20 years' experience, produces events that are irreplaceable instruments of training, refresher courses, research and scientific knowledge sharing in the Healthcare field. EBP is a partner with the main players in the sector, worldwide.

Official provider for ECM (Continuing Education in Medicine) at the Italian Ministry of Health

EBP is officially qualified to organize and manage programs rich with formative events that update and develop the knowledge, the competencies and the performance of Italian Healthcare operators. ECM also assigns credits directly to the participants, according to the rules and parameters set by the system.

Complete management of every plan

EBP manages the event in every phase: from the organization before, during and after the event, to the organization of scientific expositions, the press office, and any specialized scientific services.
