

## COMPANY PROFILE

For the past 20 years Input has been organizing conventions, events, stands and technological sets developing both strategic and creative contents as well as production and technology, from concept to installation, films and videos.

In close collaboration with Keyword others companies, Input has realized cross-media events that grasps the power of different media - video, digital technologies and promotions - to create unique, exciting and memorable experiences.

Because of their integrated strengths, Input and Output also manage the efficiency of the staff, the welcome, logistics and results. This offers a unique and complete product, centered on the target and tailored for duration, content and importance.
